Policy Document: Water Management at Shivaji College, Hingoli

Introduction:

Water is a vital resource that sustains life and is essential for the functioning of educational institutions. At Shivaji College, Hingoli, we recognize the importance of sustainable water management practices to ensure the availability of clean water for all stakeholders, including students, faculty, staff, and visitors. As part of our commitment to environmental conservation and responsible resource management, Shivaji College has implemented a water management system that includes the use of a borewell and a filtration system. The filtered water is directed into a pit beside the borewell, ensuring that excess water is efficiently utilized and conserved. This policy outlines the objectives and guidelines for the college's water management practices.

Objectives:

- To ensure the efficient use and conservation of water resources on the college campus.
- To maintain and monitor the borewell and water filtration systems for optimal performance.
- To utilize filtered water for groundwater recharge through a pit beside the borewell.
- To provide clean and safe water to all stakeholders within the college.
- To promote awareness and encourage participation in water conservation efforts among the college community.

Conclusion:

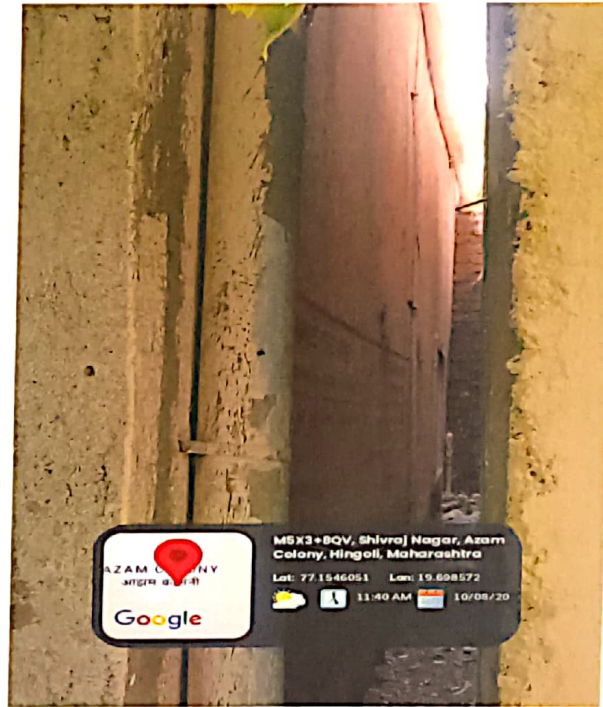

Shivaji College, Hingoli, is committed to sustainable water management practices that not only meet the needs of the present but also secure resources for future generations. By implementing measures such as the filtration system and groundwater recharge through the pit beside the borewell, the college aims to manage water resources effectively and responsibly.
